

Food Allergy Check-List

Allergy and Dermatology

Ears and Rears are most common symptoms
Scotting + GI upset + Gas + 3 or more poops per day

No need for prescription diets
they are costly and have 2-3% contamination
Home cooked diet is best - see ingredient list

Over the counter diets work well if

NO beef - dairy - cheese - yogurt - rawhides - bully sticks
NO bison or buffalo - they are just weird cows
NO chicken - egg - turkey

MUST READ INGREDIENTS - most brands sneak in chicken-fat/meal
ie. - all Purina diets have chicken or egg

Good diets are usually - Lamb or Fish or Pork or Duck or Kangaroo flavored

ALL AVAILABLE ON CHEWY.COM and AMAZON

Pure Balance - Lamb and Fava Bean (Walmart)
Blue BASICS Limited Salmon or Lamb or Duck (Walmart, PetSmart)
4Health Sensitive Skin - whitefish (Tractor Supply)
Diamond Naturals grain-free White fish (Tractor Supply)
Natural Balance LID limited ingredient - Salmon/Lamb/Pollock/Duck

Taste of the Wild Pacific Stream or Ancient Stream (Rural King)
Zignature Limited Ingredient Lamb or Trout/Salmon or Pork or Duck
FreshPet Vital Grain-Free Salmon/Ocean Whitefish (Petco, PetSmart)

Vegetarian/Vegan diets would be great - but read ingredients for chicken-fat/meal

Canidae Sustain Vegetarian (PetSmart)
Natural Balance Limited Ingredient Vegetarian (PetSmart)
Halo Holistic Vegan Garden/Ocean
Wild Earth Complete Protein Vegan

Any chewable medication must be **non-Beef and non-Chicken flavored**

Flea/tick/mosquito = Simparica and Credelio and Bravecto are fine
Heart-worm = Old Flavor Tabs of Sentinel/Interceptor
or ProHeart injections are fine

Food Allergy is like pregnancy - NO LITTLE OR LOT pregnant - just yes or no

Any amount of allergic ingredient/diet/treats/chews
even if only every 30 days will cause problems
